Full-Stack Web Development Intern
WebBocket Software Pvt. Ltd., Bhubaneswar
February 2024 - March 2024 (60 Days)
- Developed and maintained full-stack applications using MERN STACK
- design and implement REST APIs
- Integrated third-party APIs and handled user authentication (JWT)
- Improved app performance and optimized database queries
- Worked with Git and GitHub for version control and project

Core Java Intern
Odisha Computer Application Centre, Bhubaneswar
Mar 2023 – Apr 2023 (60 Days)
- Experience developing Java applications in NetBeans IDE

PROJECTS

🔗 E-COMMERCE WEBSITE
- Developed a full-featured e-commerce platform using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented user authentication, product management, shopping cart functionality, secure payment integration (Stripe), and an intuitive admin dashboard for order and inventory management.
- Utilized Redux for state management and deployed the application on a cloud platform (Vercel/Render).
- Live Demo: https://amazon-frontend-red.vercel.app/

🔗 Language-Learning-Platform
- Developed an interactive web application to facilitate language learning through structured lessons and vocabulary exercises.
- Implemented an interactive lesson system to engage users in language courses.
- Built a responsive and user-friendly UI with React.js, TypeScript and Tailwind CSS.
- Deployed the platform on Vercel for seamless accessibility.
- Live Demo: https://language-learning-platform-topaz.vercel.app/

🔗 Todo List Platform
- Developed a task management application using [Tech Stack: React, Node.js, MongoDB].
- Implemented CRUD operations to add, delete, and mark tasks as complete.
- Designed a user-friendly UI.
- Integrated authentication (JWT) for secure access.
- Deployed the app using [Vercel/Render] for real-world accessibility.
- Live Demo: https://totofrontend.vercel.app/
